SHORED UP

When Superstorm Sandy devastated the East Coast, it was a wake up call to a new reality. *Shored Up* takes us to the heart of this climate change controversy, following communities in NJ and NC where politics, economics and science collide.

As the oceans rise and storms flood our towns and cities, do we ignore nature, or do allow science to guide our policies?

Wednesday Nov. 6, 2013: Florida Gulf Coast University
Reception: 6:00 PM, Film starts at 6:30, Discussion follows
Edwards Hall, room 112, Ft Myers, Florida

With Dr. Michael Savarese (FGCU) & Jim Beever (SWFRPC)
