- Roger Copp of WSA PowerPoints (on-webpage), roger@wsaconsult.com

2020 Seagrass Mapping Results for Charlotte Harbor

- Chris Anastasiou of SWFWMD PowerPoint (on-webpage), Chris.Anastasiou@swfwmd.state.fl.us

Seagrass and Macroalgae Trends in Charlotte Harbor: Current Findings and Ongoing Efforts

- Nicole Iadevaia of CHNEP PowerPoint (on-webpage), NIadevaia@chnep.org
- Kim Dryden, USFWS asked if Chris and Nicole could present to Vero Beach USFWS and both were agreeable if Kim would arrange it.

Open Forum for ALL Stakeholders: Updates on Issues, Research, Projects, Acquisitions, Future Agenda Items, etc.

- Kim Fikoski, SWFWMD noted 1) the 1st public meeting on the Burnt Store Road PD&E will be held in the fall (time & date TBD) & if any partners have survey data for properties along the road corridor please contact me so we can share it with the PD&E team to assist with ground truthing their LIDAR, 2) the Tidal Creeks Map will be updated to include creeks and major canals and will be provide before or by the September meeting; and 3) Brandon Moody is the new Charlotte County Water Quality Manager developing a County-wide WQ Monitoring Plan. His contact info is: 941-743-1354, 941-740-0289 cell, Brandon.Moody@charlottecountyfl.gov.
- Debi Osborn, Conservation Foundation of Gulf Coast noted a correction to the June agenda – the property they are working with FWC to acquire is the Ennis Property (not Hall Ranch)

2021 Quarterly meetings

- September 15
- December 8 (week change to avoid conflict with CHNEP CAC)

All CHFI information is available on the CHNEP Water Atlas CHFI Webpage:
